Interreg South Baltic Programme 2021–2027

ANNOUNCEMENT OF THE 4th CALL FOR PROPOSALS

5th November 2024 – 4th February 2025 (till 16:00 CET)

(Open for regular projects under Programme Measures 1.1, 2.1, 2.2, 3.1, 4.1)

Interreg South Baltic Programme 2021-2027

The Interreg South Baltic Programme 2021-2027 is a multilateral cross-border cooperation programme between the coastal regions of five EU Member States: Germany, Denmark, Sweden, Lithuania, and Poland, implemented in the framework of the Interreg policy of the European Union funded by the European Regional Development Fund (ERDF).

Maritime cooperation in the South Baltic area (SBA) is based on joint challenges and opportunities strongly connected with a common natural resource – the Baltic Sea. The regions of the Programme have strong historical roots of cooperation, which is an important background for sustainable regional growth.

Over the years, the networks created by beneficiaries of the Programme were strengthened to make the potential of the South Baltic area more visible in the European context, and the Programme itself took on more strategic and focused approach to support the blue and green economy at a very local level.

The future priority and direction of growth is reflected in the motto of the Programme: *“United by the sea into action for blue and green future – Innovative, Sustainable, Attractive and Active South Baltic”*.

Actions with the focus on natural and cultural heritage together with economic, environmental and social development, bring cooperation of different actors in the SBA foremost aiming at improving the quality of life of its inhabitants.

Programme Priorities and Measure

The fourth call for project applications under [Programme Measures 1.1, 2.1, 2.2, 3.1, 4.1](#) is now open. While all provisions of the Programme Manual, its Annexes and other Programme documents stay valid, the Monitoring Committee of the Programme emphasized that beneficiaries should pay special attention in future projects to identified challenges and expected solutions within each Measure by [filling in the missing thematic gaps and contribution to obligatory output and result indicators](#) (see below information on special requirements in this call for completing obligatory output and result indicators as well as tables with Programme output and result indicators still to be delivered). [If a project does not comply with these call specific requirements, it will be rejected based within the scope of Admissibility and Eligibility checks](#). Please note that after the previous call projects will be clarified and contracted, the value of some indicators committed to the Programme might change.

PRIORITY 1 - Innovative South Baltic

• Programme Measure 1.1 Digitalising the region

The project activities should propose i.a. innovative approaches including digitalisation of public services and increasing the level of digitalisation of different sectors to integrate services and strengthen connectivity within the South Baltic area. It is expected that proposals will support development of digital skills and boost the development especially of sectors related to the blue and green economy.

Besides contributing to RCO116/RCR104 obligatory indicators, the following call specific criteria on indicators were defined for Programme Measure 1.1:

- A project **must contribute** (besides contributing to obligatory indicators) to output indicator **RCO14 – Public institutions supported to develop digital services, products and processes** and as a result, projects must contribute (besides contributing to obligatory indicators) to result indicator: **RCR11 – Users of new and upgraded public digital services, products, and processes.**

AND/OR

- A project **must contribute** (besides contributing to obligatory indicators) to output indicator **RCO04 – Enterprises with non-financial support.**

While a project may contribute to both requirements listed above at the same time as well as to other indicators, each project must comply with at least one out of the two call specific requirements. Otherwise the project will be rejected within the scope of Admissibility and Eligibility checks.

Programme Measure 1.1 Digitalising the region	Value of the committed indicators after previous calls	Value of the Programme set target	Indicator achievement rate on the Programme level
RCO01 Enterprises supported (of which: micro, small, medium, large)	213	538	40%

RCO02 Enterprises supported by grants	6	8	75%
RCO04 Enterprises with non-financial support	207	530	39%
RCO14 Public institutions supported to develop digital services, products and processes	4	9	44%
RCO84 Pilot actions developed jointly and implemented in projects	13	8	162%
RCO116 Jointly developed solutions (obligatory)	10	16	63%
RCR11 – Users of new and upgraded public digital services, products, and processes	1208	15000	8%
RCR104 Solutions taken up or up-scaled by organisations (obligatory)	10	8	125%

PRIORITY 2 - Sustainable South Baltic

- **Programme Measure 2.1 Supporting transition towards green energy**

The cross-border projects are expected to be aimed at both raising the awareness and developing solutions to improve the production and use of renewable energy, which can further help implementing the energy transitions. Solutions may include complementary actions focusing on developing and adapting systems of energy storage and distribution in order to ensure the safe and efficient use of renewable energy.

The following call specific criterion on indicators was defined for Programme Measure 2.1:

- Every project **must contribute** to **RCO116 – Jointly developed solutions** and as a result to **RCR104 - Solutions taken up or upscaled by organisations** with **at least two solutions**.

In case the project does not comply with this requirement, it will be rejected within the scope of Admissibility and Eligibility checks.

Programme Measure 2.1 Supporting transition towards green energy	Value of the committed indicators after previous calls	Value of the Programme set target	Indicator achievement rate on the Programme level
RCO84 Pilot actions developed jointly and implemented in projects	12	23	52%
RCO116 Jointly developed solutions (obligatory)	14	32	44%
RCR104 Solutions taken up or up-scaled by organisations (obligatory)	14	16	88%

- **Programme Measure 2.2 Promoting sustainable use of water**

The Baltic Sea and its tributaries suffer from a high level of pollution (e.g. plastics and chemicals) and eutrophication. Actions planned in project proposals should i.a. aim at broadening support of efficient and sustainable water management, especially in the field of reducing the outlets of nutrients and hazardous substances into river-basins, and subsequently the Baltic Sea to enhance the water quality.

The following call specific criterion on indicators was defined for Programme Measure 2.2:

- Every project **must contribute** to **RCO116 – Jointly developed solutions** and as a result to **RCR104 - Solutions taken up or upscaled by organisations** with **at least two solutions**.

In case the project does not comply with this requirement, it will be rejected within the scope of Admissibility and Eligibility checks.

Programme Measure 2.2 Promoting sustainable use of water	Value of the committed indicators after previous calls	Value of the Programme set target	Indicator achievement rate on the Programme level
RCO84 Pilot actions developed jointly and implemented in projects	14	21	67%
RCO116 Jointly developed solutions (obligatory)	16	29	55%
RCR104 Solutions taken up or up-scaled by organisations (obligatory)	16	15	107%

PRIORITY 3 - Attractive South Baltic

- **Programme Measure 3.1 Developing sustainable, resilient, and innovative tourism**

Project proposals are anticipated to address sustainable tourism development: the actions should focus on the improvement of the tourist and cultural offers and creation of new ones forming new and innovative services and products; reduction of the negative impact of travel and tourism on the natural environment; sustainable use of resources such as energy; mitigation of tourism seasonality and transition towards sustainable, all-year-round tourism. Projects promoting the common brand of the South Baltic and joint cultural or natural tourism heritage shall be expected as well.

The following call specific criterion on indicators was defined for Programme Measure 3.1:

- Every project **must contribute** to **RCO116 – Jointly developed solutions** and as a result to **RCR104 - Solutions taken up or upscaled by organisations with at least two solutions.**

In case the project does not comply with this requirement, it will be rejected within the scope of Admissibility and Eligibility checks.

Programme Measure 3.1 Developing sustainable, resilient, and innovative tourism	Value of the committed indicators after previous calls	Value of the Programme set target	Indicator achievement rate on the Programme level
RCO77 Number of cultural and tourism sites supported	47	34	138%
RCO84 Pilot actions developed jointly and implemented in projects	29	27	107%
RCO87 Organisations cooperating across borders	136	64	213%
RCO116 Jointly developed solutions (obligatory)	19	60	32%
RCR77 Visitors of cultural and tourism sites supported	51 400	68 000	76%
RCR84 Organisations cooperating across borders after project completion	136	26	523%

RCR104 Solutions taken up or up-scaled by organisations (obligatory)	19	30	63%
--	----	----	-----

PRIORITY 4 - Active South Baltic

- **Programme Measure 4.1 Strengthen the cooperation capacity of actors based within the South Baltic Area (including civil society)**

The projects are expected to focus on capacity building and strengthening the cross-border cooperation of different actors functioning within the eligible area to solve common cross-border problems and build mutual reliance. Projects are proposed to include a wide group of actors, especially local actors (e.g. NGOs, cultural institutions, non-formalized organizations, organizations supporting people with disabilities and from vulnerable groups, youth organisations), to cooperate, create ample opportunity for networking, exchange experience and build cooperation capacities under implementation of a joint project.

The following call specific criterion on partnerships was defined for Programme Measure 4.1:

- **At least 1/3 of project partners must be newcomers.**

In case the project does not comply with this requirement, it will be rejected within the scope of Admissibility and Eligibility checks.

Definition of a newcomer: a project partner organisation that:

- did not participate as project partner in approved regular projects in Interreg South Baltic Programme 2014-2020 as well as
- is not involved as project partner to approved regular and small-scale projects in the Interreg South Baltic Programme 2021-2027.

When calculating the obligatory number of newcomer the mathematical rounding rules shall apply. Detailed information on the minimum number of newcomers in partnership of different sizes is demonstrated in the table below.

Number of project partners	Minimum number of newcomer organisations as project partners
2-4 project partners	1 newcomer project partner
5-7 project partners	2 newcomer project partners
8-10 project partners	3 newcomer project partners
11-13 project partners	4 newcomer project partners
14-16 project partners	5 newcomer project partners
More than 16 project partners	Following the same way of calculation as above.

To support project development together with the Call announcement, a list of organisations that are not considered newcomers has been published on the Programme website. It is the responsibility of the partnership, especially of the lead partner and the respective project partners, to ensure that the partnership complies with the aforementioned requirement. If during project development doubt arises about the status of an organisation, the lead partner may contact the Joint Secretariat to confirm the newcomer status of an organisation.

In the 4th call for proposals the Programme does not pose any additional requirement on indicators in this Measure. Nevertheless, to support project development, the state of play considering indicator achievement is presented in the table below.

Programme Measure 4.1 Strengthen the cooperation capacity of actors based within the South Baltic Area (including civil society)	Value of the committed indicators after previous calls	Value of the Programme set target	Indicator achievement rate on the Programme level
RCO81 Participations in joint actions across borders	4006	4092	98%

RCO87 Organisations cooperating across borders (obligatory)	33	154	21%
RCR84 Organisations cooperating across borders after project completion (obligatory)	33	62	53%
RCR85 Participations in joint actions across borders after project completion	1 650	1 228	134%

Programme area

The eligible area for the Programme consists of regions from five EU Member States, which includes the following NUTS III units:

- **Denmark:** Bornholm, Østsjælland, Vest-og Sydsjælland
- **Sweden:** Skåne län, Blekinge län; Kalmar län, Kronobergs län
- **Germany:** districts (Landkreise) Nordwestmecklenburg, Rostock, Vorpommern-Rügen, Vorpommern-Greifswald and district-free city (kreisfreie Stadt) of Rostock
- **Poland:** Chojnicki, Miasto Szczecin, Szczeciński, Stargardzki, Koszaliński, Słupski, Szczecinecko-Pyrzycki; Gdański, Trójmiejski, Elbląski and Olsztyński
- **Lithuania:** Klaipėdos apskritis, Tauragės apskritis, Telšių apskritis.

NB: As a general rule, project activities should be implemented in the Programme area. In exceptional cases, if for the benefit of the Programme eligible area and the Programme's objectives, some activities may be implemented outside the Programme area or even on the territories of other EU Member States.

Partner type in projects

In the South Baltic Programme the project partnership can consist of three types of partners:

- lead partner (LP);
- project partners (PP);
- associated partner(s) (AP).

While all types of partners are expected to commit themselves to the delivery of the project, only the first two types of partners (the lead partner and project partners) can benefit directly from ERDF funding and have to provide their own contribution as a counterpart to the Programme co-financing. The involvement of associated partners in the project partnership is not obligatory.

Lead partner

In order to act as a lead partner in the South Baltic Programme project an organization has to meet the following criteria:

Eligible legal form:

- national, regional and local authorities;
- bodies governed by public law (as defined in Art 2(1) of Directive 2014/24/EU of the European Parliament and of the Council of 26 February 2014 on public procurement and repealing Directive 2004/18/EC (OJ L 94, 28.3.2014). This means bodies that have all of the following characteristics:
 - a) established, under public or private law, for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character, and
 - b) having legal personality, and
 - c) financed, for the most part, by the State, regional or local authorities, or other bodies governed by public law; or subject to management supervision by those bodies; or having an administrative, managerial or supervisory board, more than half of whose members are appointed by the State, regional or local authorities, or by other bodies governed by public law associations of one or several regional or local authorities;
- associations of one or several bodies governed by public law;
- European Grouping of Territorial Cooperation (EGTC) (as defined in the Regulation (EC) No 1082/2006 as amended by Regulation (EU) No 1302/2013).

Eligible geographical location:

1. Programme area (referring to the legal address of the organisation).
2. In justified cases, organisations of national or regional level that are located outside the Programme area but in the Programme Member State and have a recognizable impact and/or functional links with the Programme area. In such cases it is strongly recommended that the JS is contacted in advance to confirm eligibility.
3. The national/regional authorities which have territorial jurisdiction over the Programme region also can become lead partners if justified.

NB: Each lead partner should have sufficient financial, management and organisational capacities: this will be assessed on a case-by-case basis during the quality assessment of applications. Therefore, such organisations, especially NGOs, should be able, on short notice, to present and provide the JS with three year's balance sheets and employment records to prove their ability to cover for potential irregularities during project implementation.

Project partner

In order to act as a project partner in the South Baltic Programme an organization has to meet the following criteria.

Eligible legal form:

- national, regional and local authorities;
- bodies governed by public law (as defined in Art 2(1) of Directive 2014/24/EU);
- associations of one or several regional or local authorities;
- associations of one or several bodies governed by public law;
- European Grouping of Territorial Cooperation (EGTC) (as defined in the Regulation (EC) No 1082/2006 as amended by Regulation (EU) No 1302/2013).
- SME associations and clusters;
- Chambers of commerce, trade unions and NGOs;
- other entities established under public or private law operating for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character;
- SMEs.

Eligible geographical location:

1. Programme area (referring to the legal address of the organisation).
2. In justified cases, organisations located outside the Programme area, but within the EU.
3. Applicants located outside the Programme area, but in the EU Member States, are entitled to receive a maximum of 80% of ERDF co-financing.

4. For partners from EU Member States outside the Programme area, special agreements are needed between the MA and the EU Member State in question, wherefore the JS should be consulted as early on as possible.

Involvement of SMEs as project partners

In order to act as a project partner in the South Baltic Programme project an SME has to meet the following criteria:

1. SMEs can participate as project partners in projects under all Programme Measures.
2. SMEs cannot act as the lead partners.
3. Each organisation representing SME should be established at least 3 years before the announcement of the call for proposals for which each respective SME is applying.
4. To confirm their status each SME must fill a relevant section in the Supplementary Application Form and submit it in the WOD2021 Application System.
5. Involvement of SMEs in projects as projects partners should be justified and explained to be relevant and necessary for achievement of project results.

NB: An organisation cannot join a partnership as a project partner if its only activity within its business profile consists of project coordination, management, project communication, and consulting!

It is strongly recommended to involve partners from the public sector located in the Programme area of the respective participating country from where any SME is involved for a broader coverage of target groups, wider communication, and sustainability of project results maintained with the help of the public sector organization.

Associated partners

If an organisation does not comply with the eligibility requirements or does not intend to become financially involved in the project but is willing to take part in the projects, it may take on the role of the associated partner: these partners participate in the activities of the project but are not directly involved in the design and implementation of the project and have no budget share.

Associated partners may come from the EU Member States only.

Financing of the Programme

Available Programme funding

The funding available under the 4th call for proposals is 27 006 075,26 EUR ERDF. Its distribution between the Programme Priorities and Measures for the 4th call for proposals is presented in the table below:

Category	Total available amount of co-financing for projects in the 4 th call in EUR (ERDF)
PRIORITY 1 - Innovative South Baltic	
1.1 Digitalising the region	2 942 742,20
PRIORITY 2 - Sustainable South Baltic	
2.1 Supporting transition towards green energy	7 263 155,80
2.2 Promoting sustainable use of water	4 375 054,87
PRIORITY 3 - Attractive South Baltic	
3.1 Developing sustainable, resilient and innovative tourism	8 327 913,30
PRIORITY 4 - Active South Baltic	
4.1 Strengthen the cooperation capacity of actors based within the South Baltic Area (incl. civil society)	3 670 595,52

Co-financing rates

All partners regardless their geographical location can receive the amount of ERDF co-financing of maximum 80%.

The project budget formula is:

Max 80% of ERDF + 20% of co-financing = 100% of the total eligible budget.

Costs incurred during the project preparation

The Programme offers a lump sum for project preparation costs (no proof in the form of financial documents is needed), under the condition that the project application has been approved in the call for proposals.

The lump sum is the only way to cover preparation costs; real costs cannot be submitted and claimed for reimbursement.

NB: The lump sum is granted only if the project did not receive seed money from the South Baltic Programme 2014-2020 or another seed money instrument.

The Programme also foresees the use of simplified cost options for other costs than preparation costs; please see the Programme Manual for details.

Project start date

The earliest start date of the project can be the day after the end date of the respective call for proposals.

At the latest, the implementation phase is required to start three months after the decision of the Monitoring Committee.

NB: Project activities can be carried out before approval of the project by the Monitoring Committee, but at the project's own risk!

Application package

The documents necessary for application can be found in the application package published on the Programme website – <https://southbaltic.eu/4th-call-for-proposals>.

The Programme documents will not be altered during the call for proposals and project assessment.

The application package consists of:

- Call for proposals announcement;
- Programme Manual;
- Guidelines on filling in and submitting the Application Form;
- The list of supporting documents to be attached to the Application Form;
- Complaint form template.

All relevant documents have to be filled in English as this is the official and working language of the Programme. Applications submitted in another language will be considered ineligible.

It is recommended to get familiar with the draft template of the Subsidy Contract as well as with the draft template of the Partnership Agreement before submitting the application.

Submission of applications

In the programming period of 2021-2027 the Programme introduces an electronic system for the submission of the Application Forms: **the WOD2021 Application system**.

When applying for the Programme funding in the WOD2021 system, make sure to choose the call relevant to the addressed Measure:	
Measure 1.1	STHB.01.01-IP.01-003/24
Measure 2.1	STHB.02.01-IP.01-003/24
Measure 2.2	STHB.02.02-IP.01-003/24
Measure 3.1	STHB.03.01-IP.01-003/24
Measure 4.1	STHB.04.01-IP.01-003/24

All Application Forms should be filled in and submitted via the WOD2021 Application system and accompanied with the supporting documents:

1. Supplementary Application Form (MS Excel).
2. Additional documents to be filled in, signed, dated, and stamped using the relevant template forms (where available):
 - Project Partner Declarations;
 - Letters of Commitment for all associated partners (if applicable);
 - Letter of Dedication and Support from EUSBSR PA (if applicable). Projects should approach Priority Area Coordinator no later than 31st of May 2024 and include project idea form in their request;
 - Declaration of compliance with the DNSH principle (if applicable);
 - Statements on non-discrimination (Polish partners only).

NB: The JS reserves the right to request any partner to submit additional documents during the assessment process to support their financial, organisational and/or management capabilities and eligibility in accordance with the Programme rules as well as documents related to the State aid/ De minimis aid.

The Application Form should be submitted in the system by 4th of February 2025 (till 16:00 CEST) at the latest!

Selection and approval of projects

The decision on the selection and approval of project proposals is taken by the Monitoring Committee. Submitted and registered applications are subjected to a two-stage assessment carried out by the Joint Secretariat officers and external experts:

1. Admissibility and eligibility check.
2. State aid and quality assessment.

Only if the application passes the Admissibility and eligibility check it can be subject to State aid and quality assessment.

The Monitoring Committee's decision on the approval of projects submitted under the 4th call for proposals is expected on **18 June 2025**.

Complaints

If the partnership does not agree with the project assessment and selection process and assumes the process of assessment and selection was not conducted in line with the assessment and selection procedures, it is entitled to submit a complaint.

Annex 5 Complaint procedure and template of the Programme Manual provides an explicit description of the complaint procedure and the form to be filled in. The Annex can be found at the Programme website at www.southbaltic.eu.

Further information and contacts

Comprehensive information on the South Baltic Programme can be found at the Programme website at www.southbaltic.eu.
