

Business Plan 2023 – 2025

Call for Proposals

EIT Community Enhance New European  
Bauhaus Partner Call 2025

*Scaling up the most promising Connect NEB and Co-  
create NEB projects*

## Call Manual

**EIT Community NEB:**

EIT Urban Mobility

EIT Climate-KIC

EIT Food

EIT Manufacturing

Barcelona | 10 March 2025

# History of changes

Version	Publication Date	Change
1.0	10.03.2025	Initial version
2.0	19.03.2025	Clarification on the eligibility criteria of the call
3.0	27.03.2025	Clarification of the participation of cities in the proposal

Any updates to this Call Manual are identified in the table above. Amended versions of the Call Manual are published on the EIT Urban Mobility, EIT Climate-KIC, EIT Food and EIT Manufacturing websites.

<b>KIC</b>	Knowledge and Innovation Community
<b>KPIs</b>	Key Performance Indicators
<b>MGA</b>	Model Grant Agreement
<b>NEB</b>	New European Bauhaus
<b>SER</b>	Summary Evaluation Report

# Glossary

<b>Lead Applicant</b>	The entity/person that submits the proposal and will coordinate the project if it is selected. If the proposal is successful, the Lead Applicant becomes the Project Leader.
<b>Project Leader</b>	The Project Leader is the main contact for EIT Urban Mobility, EIT Climate-KIC, EIT Food and EIT Manufacturing (EIT Community NEB) from the proposal submission stage to the end of project implementation. The Project Leader represents the project and the consortium partners (the other partners participating in the project, if any) to EIT Community NEB, and also has responsibility for creating and submitting a proposal. For mono-participant grants, the single legal entity involved in the project also has the role of Project Leader.
<b>Call for Proposals</b>	The Call for Proposals is the instrument used to allocate funding by EIT Community NEB to third parties, supporting the deployment and development of the Strategic Agenda.
<b>Call Manual</b>	The Call Manual is the main document outlining the terms, conditions, and criteria for any call for proposals launched by EIT Urban Mobility, adhering to the principles of transparency, equal treatment, open competition, and sound procedural management.
<b>Consensus meeting</b>	The consensus meeting is convened so that all experts who assessed the proposals can discuss their individual evaluation reports and agree on the comments and scores reflected in the Summary Evaluation Reports (SERs). This remote meeting is led by the Rapporteur and supported by the Quality Controller, who seek a consensus and ensure that proposals are evaluated in a fair manner and in line with the established evaluation criteria.
<b>Coordinating KIC</b>	The KIC coordinating the grant for a project.
<b>Deliverable</b>	Deliverables capture the achievement of key outputs and take the form of analysis reports, feasibility studies, strategy documents, pilot action reports and training

	documents. The deliverables specified must fully demonstrate the project's achievements and the judicious use of public funds.
<b>EIT KPIs</b>	Set of key performance indicators (KPIs) defined by the European Institute of Innovation and Technology (EIT) that reflect its operational objectives for education, entrepreneurship and innovation. These KPIs are used to measure how effectively a KIC/project is meeting the objectives of EIT.
<b>Evaluation Panel</b>	A group of Expert Evaluators and a Rapporteur with specific expertise in a particular area/segment of the call with the aim of evaluating a set of eligible proposals submitted to a call.
<b>Evaluation Process</b>	Process by which EIT Community NEB, supported by External Expert Evaluators, examines the quality of a proposal to decide if it should be selected to receive EIT funding.
<b>Horizon Europe Model Grant Agreement</b>	The Horizon Europe Model Grant Agreement (HE MGA) sets out the rights and obligations and the terms and conditions applicable to the grant awarded.
<b>KIC Specific KPIs</b>	Set of indicators defined by EIT Community NEB that reflect the societal challenge that the KIC is trying to address.
<b>Knowledge triangle integration</b>	EIT Community NEB aims to create close-knit partnerships between European education, research and business entities (knowledge triangles) and also involves cities, either through the composition of project members or through the expected impact of the project results.
<b>Milestones</b>	Control points to chart progress. They may correspond to the completion of a key deliverable that allows the next phase of work to begin.
<b>Outputs</b>	Tangible results, e.g. the specific technology, product, service, method, design, patents, jobs, curricula, prototypes, concept, methodology, approach, skills or experience created by the project.
<b>Ranking list</b>	List of proposals ranked according to the score awarded by the Selection Committee.
<b>Selection Committee</b>	The Selection Committee is responsible for endorsing the selected proposals and defining the conditions for funding to include the selected proposals in EIT Community NEB's final project portfolio.
<b>Summary Evaluation Report</b>	The Rapporteur issues a single and final SER for each proposal after the consensus meeting. This document provides a concise overview of the proposal's final evaluation score, strengths, weaknesses, associated risks and any recommendations made.

# Introduction

Building on the 2023 and 2024 editions, EIT Urban Mobility, Climate-KIC, EIT Food, and EIT Manufacturing are jointly launching this new **Enhance NEB 2025 Call for Proposals**.

A total of **four projects** previously funded from the Connect NEB and Co-CreatE NEB Calls implemented during 2023 or 2024 will be selected to either strengthen their impact more holistically within the same project location or replicate them in order to amplify their impact in a new area. The list of partners eligible for this Call can be found in Annex 1.

Each partner of the consortium (excluding new cities, regions or affiliated entities that will not receive EIT funding) will receive an EIT contribution totalling 80% of the overall project budget, with a maximum EIT funding amount of €45,000 per project. The consortium is required to co-fund a minimum of 20% of the total budget.

More broadly, the scale-up mechanism aims to provide new pathways into more comprehensive cooperation with the EIT Community NEB ecosystem. Any proposals submitted must contribute to tackling the EIT Community NEB Challenges. All proposals need to embed and integrate all three core New European Bauhaus values (sustainability, aesthetics, inclusion) and all three key New European Bauhaus principles (multilevel, participatory, transdisciplinary approach) into their projects.

This Call for Proposals follows the main rules and principles established by the EIT Community NEB and EU general principles. The Call processes respect the principles of openness, transparency, equal treatment, and efficacy.

# 1. Call summary

Call for Proposals: Main Features <sup>1</sup>	
Key dates of the Call calendar	<ul style="list-style-type: none"> <li>• <b>Call opening:</b> 10 March 2025</li> <li>• <b>Call closing:</b> 22 April 2025 at 17:00 CET</li> <li>• <b>Eligibility and admissibility check:</b> April 2025</li> <li>• <b>Evaluation of proposals:</b> End April-Early May 2025</li> <li>• <b>Communication of results:</b> Early May 2025</li> <li>• <b>Tentative start of the projects:</b> Mid-May 2025</li> </ul>
Total estimated EIT Funding allocated to this Call and co-funding rate	<p>€180,000 for the entire Call. Four proposals with up to €45,000 each. All proposals must have a minimum co-funding<sup>2</sup> of 20%.</p>
Link to the submission portal	<ul style="list-style-type: none"> <li>• The <b>new EIT Urban Mobility NetSuite platform</b> will be available in mid-March 2025</li> </ul>
List of documents to be submitted	<ul style="list-style-type: none"> <li>• Application Form available on the NetSuite platform (mandatory)</li> <li>• Letter of Intent if applicable</li> </ul>
List of documents to take into consideration	<ol style="list-style-type: none"> <li>1. Call Manual</li> <li>2. The <a href="#">New European Bauhaus Compass</a></li> <li>3. Guidelines for Applicants (steps to submit the application form)</li> <li>4. Eligibility of expenditure</li> <li>5. Appeal procedure</li> <li>6. Letter of Intent template (if applicable)</li> <li>7. Financial Support Agreement (FSA) template from EIT Urban Mobility</li> <li>8. Horizon Europe Model Grant Agreement</li> <li>9. EIT Community NEB Project Implementation Handbook</li> </ol>
Short summary of the topics to be addressed	<p>The EIT Community NEB Challenges cover four main thematic axes:</p> <ul style="list-style-type: none"> <li>• Reconnecting with nature</li> <li>• Regaining a sense of belonging</li> <li>• Prioritising the places and people that need it the most</li> <li>• The need for long-term, life-cycle thinking in the industrial ecosystem</li> </ul>
Evaluation criteria	<p>The proposals will be evaluated based on the criteria listed below, as stated in Section 4 “Evaluation and selection process”:</p> <ul style="list-style-type: none"> <li>• Excellence and novelty</li> <li>• Impact and social, economic, financial, and general sustainability</li> <li>• Quality and efficiency of the implementation</li> </ul>

<sup>1</sup> Please note that this calendar is indicative. Dates may be subject to slight changes.

<sup>2</sup> Co-funding refers to financial contributions such as partners’ own resources and/or other non-EIT Community NEB funding sources.

## 2 Call requirements

### 2.1 Who can apply

The Enhance NEB 2025 Call for Proposals is open to **EIT Community NEB partners listed in Annex 1** who have successfully implemented a project in **2023 or 2024 funded by the Connect NEB and Co-Crete NEB Calls**. Entities that have been awarded through any Connect NEB and Co-create NEB projects during 2023 and 2024 are eligible to apply to Enhance NEB 2025 as long as the project has not been awarded with any Enhance NEB call before.

Additionally, all proposals must be presented by consortia of **minimum two and maximum of four entities**. The lead partner must be an eligible EIT Community NEB partner listed in Annex 1.

**Cities, regions, or affiliated entities associated** with a city or region from EIT Community NEB partners **or new city, region, or affiliated entity** (not coming from the EIT Community NEB) must be represented in the proposal, either as a partner of the consortium or as observer. It is important to differentiate between the possible roles of these entities:

1. **If the EIT Community NEB city/region/affiliated entity has an active role in the project:** they must be added as a partner in the proposal and therefore will count toward the minimum/maximum consortium requirements. They must present a budget (covering both direct and indirect costs) and, where applicable, co-funding. They may choose whether to request EIT funding or not. If they opt not to request EIT funding, their total budget (total costs) will equal the co-funding. In any case, they will be required to sign the contract and report on their work and expenses, even if they receive zero EIT funding.
2. **If the new city/region/affiliated entity has an active role in the project:** they must be added as a partner in the proposal and therefore will count toward the minimum/maximum consortium requirements. They must present a budget (covering both direct and indirect costs) and co-funding. However, **they are not allowed to request EIT funding**. Therefore, their total budget (total costs) will equal the co-funding, and they will be required to sign the contract and report on their work and expenses, even if they receive zero EIT funding.

3. **If the EIT Community NEB city/region/affiliated entity or the new city/region/affiliated entity doesn't play an active in the project:** they are considered observers<sup>3</sup> rather than formal partners. They are not considered toward the minimum/maximum consortium requirements. As observers, they do not need to register in NetSuite, will not be listed as project partners, have no budget allocation, and have no contractual obligations with the KIC. However, they **must provide a Letter of Intent in English** during the proposal submission to demonstrate their interest in and support of the project.

All the participating entities must be located in the [EU Member State or a Third Country associated to Horizon Europe](#).

This Enhance NEB 2025 Call encourages EIT Community NEB partners to strengthen existing relations or enter new collaborations with eligible partners. Some examples of potential consortium composition:

- The same consortium composition of EIT Community NEB partners, including a city, region or affiliate entity, part of an already funded project (Annex I);
- Newly established consortium composition combining EIT Community NEB partners, including a city, region or affiliate entity, part of an already funded project (Annex I);
- The consortium composition combining EIT Community NEB partners from an already funded project (Annex I) and a **new** city, region, or affiliated entity associated with a city or region located in an [EU Member State or a Third Country associated to Horizon Europe](#). In this case, these new entities will participate in the project and bring co-funding but will not be able to receive EIT Funding.
- Newly established consortium compositions with a city, region or affiliated entity as an observer. In that case, they would need to present a Letter of Intent from the city, region or affiliated entity expressing their interest and support the proposal.

#### **Temporary eligibility requirements for Hungarian Universities**

Following the Council's Decision on measures for the protection of the Union budget against breaches of the principles of the rule of law in Hungary that entered into force on 15 December 2022, special participation and funding restrictions may affect Hungarian public interest trusts and their linked Universities participating in any EIT Community NEB Calls. For further information and the list of affected entities, please refer to the Eligibility of Expenditure document published on the Call webpage.

---

<sup>3</sup> Observer entities typically follow project development without active participation, they may attend meetings as observers and offer informal feedback or advice. They can access non-confidential project information and benefit from knowledge exchange.

## 2.2 Exclusion criteria

Entities applying or participating in this Call can be excluded at any time (during the assessment, the contracting phase, or the implementation phase) if they:

- Are in one of the following situations:
  - a. Bankrupt, being wound up, having their affairs administered by the courts, entered an arrangement with creditors, suspended business activities or subject to any other similar proceedings or procedures under national law (including persons with unlimited liability for the participant's debts):
  - b. Declared in breach of social security or tax obligations by a final judgment or decision (including persons with unlimited liability for the participant's debts).
- Are found guilty of grave professional misconduct by a final judgment or decision (including persons having powers of representation, decision-making, or control).
- Are subject to an administrative sanction (i.e., exclusion).
- Are convicted of fraud, corruption, involvement in a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including persons having powers of representation, decision-making, or control)
- Shown significant deficiencies in complying with main obligations under a procurement contract, grant agreement or grant decision financed by the EU or Euratom budget (including persons having powers of representation, decision-making, or control).
- Have misrepresented information required for participating in the EIT Urban Mobility funding scheme or fail to submit such information.
- Were involved in the preparation of any documentation regarding this call or are involved in the evaluation process of this call and this entails a distortion of competition.

## 2.3 Scope of the activities

This Enhance NEB 2025 Call provides opportunities for EIT Community NEB partners to expand and grow. It aims to boost collaboration within and between former Connect NEB and Co-Crete NEB projects which solutions will be scaled up or replicated, whether in their existing location or elsewhere. The selected applicants will get the opportunity to contribute to the NEB movement and continue their EIT Community journey. Please visit the official [New European Bauhaus website](#) for more information.

The overall purpose of this Call is to address the various challenges faced by cities, peri-urban areas and rural areas, focusing on four New European Bauhaus thematic axes:

1. Reconnecting with nature
2. Regaining a sense of belonging
3. Prioritising the places and people that need it the most
4. The need for long-term, life-cycle thinking in the industrial ecosystem

These thematic axes are strongly interconnected to help foster the New European Bauhaus approach. We are looking for inspiring, beautiful, sustainable, and inclusive project proposals that offer new solutions to boost the transformation of our cities, peri-urban areas and rural areas in line with the New European Bauhaus core values (sustainability, aesthetics, inclusion) and principles (multilevel, participatory, transdisciplinary).

Proposals must show a deep understanding of the local ecosystem, including stakeholders, culture, and social dynamics, as well as expertise in citizen engagement activities and innovation actions.

The EIT encourages embedding the 'knowledge triangle' [*higher education, research, and innovation*] in the projects by involving at least two sides of the knowledge triangle. In the “2.7.1. Mandatory Key Performance Indicators (KPIs)” section, some of the KPIs are linked to aspects of the knowledge triangle and can be selected according to the focus of the projects. The “KSN01 Innovation pilot scaling” and the “EITHE08.1 Participants in non-labelled education and training” KPIs are particularly encouraged, as they are connected with the EIT's knowledge triangle. For some applicants, the knowledge triangle can be incorporated quite easily, for example through activities where educational centres work together with other institutions such as NGOs, industries, businesses, etc. However, some other citizen engagement activities that do not focus on the 'knowledge triangle' might be outside the scope. It should be noted that the knowledge triangle integration is optional for projects, based on the focus of the project.

## 2.4 Expected outcomes, outputs and impacts

All submitted proposals are expected to deliver a high-quality scale-up or replicability based on the previous projects' achievements. In terms of scale-up strategy, the expected project outcome should be one of the following:

- **Outcome A:** Increasing, amplifying or consolidating the project's impact in the same location by further developing co-creation methodologies and broadening target groups ensuring a more holistic and sustainable approach.
- **Outcome B:** Increasing, amplifying or consolidating the project's impact beyond the former site at a new location (e.g. neighbourhood/district/town/city/region, etc.) by replicating/transferring the activities in/to a new location).

Outcomes A and B are both likely to boost desired collaboration within and between the previously funded projects, while opening up to new city partners (as defined in section 2.1 'Who can apply') to ensure that the initiatives are scaled up or replicated.

In addition, all submitted proposals that address any of the four challenges need to **demonstrate at least one of the following three expected outputs:**

- 1. Products and services (including rapid product prototypes):**
  - Enhancing nature-based solutions, promoting green spaces and supporting urban greening.
  - Responding to citizens' real needs in urban and regional spaces, as well as improving accessibility and quality of daily life, i.e., leisure, working, moving around, commuting etc.
  - Delivering both online and in-person support, as well as public and private realm infrastructure and facilities with a focus on specific vulnerable populations, i.e., the elderly, children, ethnic minorities, marginalised groups etc.
  - Promoting long-term use and thinking, and reduce by design; also maintaining, reusing, refurbishing, remanufacturing, repurposing and recycling resources and waste, including digital and monitoring tools, and improving the current state of the art in industrial manufacturing processes.
- 2. Co-design of public spaces:**
  - Promoting green spaces and the co-stewardship of green spaces and nature-based solutions through public-private partnerships and social participation.
  - Focusing on the public realm and the commons by involving civil society and other stakeholders in order to foster diversity, strengthen inclusivity and equitability, and promote co-ownership and care of public and private spaces.
- 3. Social activation and non-labelled education and training activities:**
  - Bringing nature-based solutions by providing better access to green spaces and encouraging their collective stewardship.
  - Developing multi-stakeholder activities that enhance urban regeneration in marginalised areas, including the most polluted zones, neglected or dangerous neighbourhoods, remote areas with poor communication, and districts with limited services.
  - Developing and implementing social interventions that foster cultural understanding and connections between different social groups that would otherwise not meet.
  - Promoting activities that enhance people's sense of belonging through a shared effort to protect nature and boost sustainability and resilience.

All these outputs aim to influence local policy/strategies or achieve considerable resonance among local policymakers/strategic planners.

## 2.5 Mandatory KPIs

All submitted proposals must address **a minimum of two mandatory KPIs of those listed below**, being **EITHE08.1 one of them**, and indicate the target value for each KPI. These selected KPIs must be delivered during the project implementation phase and included in the final report.

The KPIs may be amended depending on the scope of the project and the designated coordinating KIC during the conditions-clearing phase.

KPI Code	KPI name	KPI description	Minimum target expected
KSN01	Innovation pilot scaling	<p>Number of innovation products and/or processes scaled up by expanding or replicating pilot or small-scale projects to reach more people and/or broaden the effectiveness of an intervention.</p> <p>Reporting requirement in the final performance report in the form of structured data on: List incl. the type, title and a short description.</p>	1
KSN02	Demonstrations/pilots/living labs within a project that actively involve citizens and/or local associations	<p>Actively engaging an appropriate number of citizens/community representatives of various ages and social groups in running a demonstration/successful pilot/living lab*. The aim is to encourage experimentation, research and solutions to the challenges of city life. Also, where relevant, mobilising local citizens' associations and community groups to maximise outreach to citizens. The aim is to ensure public acceptance of measures, raise awareness of any opportunities or restrictions involved when measures are implemented, and enhance ownership of measures.</p> <p><i>*Living labs are defined as user-centred, open innovation ecosystems based on a systematic user co-creation approach integrating research and innovation processes in real life communities and settings. Living labs place the citizen at the centre of innovation.</i></p> <p>Reporting requirement in the final performance report in the form of structured data on:</p>	1

		List incl. the type, title, number of participants involved and a short description. The signed and dated participant lists must also be submitted with family names and signatures, according to GDPR.	
KSN03	# Public realm improvements	<p>The public realm is a space for living, with a wide range of urban functions, where people live, work, shop, relax, meet and play. It is commonly defined as all areas between buildings including streets, boulevards and open squares that are accessible to the public.</p> <p>This KPI includes both: a) small-scale and temporary changes, using low-cost and scalable interventions, as the first step in bringing long-term systemic change, and b) permanent investment as part of a public realm action plan and/or a walking and cycling strategy, and/or parking interventions.</p> <p>Reporting requirement in the final performance report in the form of structured data on: List incl. the type, title and a short description.</p>	1
KIC.B05.1	Transition towards greater circularity (adjusted for the purposes of the given Call as MO2)	<p>Activities that lead to a reduction of material consumption (related to the process and/or product targeted) in the Enhance NEB programme.</p> <p>Innovation activities must be reported at the end of the activity (programme) if the results of the innovation activity that enables the activity partners to transition towards greater circularity have been implemented and the process or product in question has become (more) circular.</p> <p>Supported start-ups will be required to report if respective products or services have been brought to the market and material consumption rates are, or could be, lowered at the client level.</p> <p>By the end of the EIT Community programme, EIT Community NEB beneficiaries are asked to report the degree to which their activity has met its overall objective of becoming (more) circular.</p>	1
KIC.G05.1	Contribute to environmentally sustainable manufacturing (adjusted for the purposes of the Call in question)	Activities that lead to more environmentally sustainable manufacturing (related to the process and/or product targeted) in the Enhance NEB programme.	1

		By the end of the EIT Community programme, EIT Community NEB beneficiaries are asked to report the degree to which their activity has met its overall objective of achieving (more) environmentally sustainable manufacturing.	
CL04	Funding leveraged to support scale-up / diffusion of innovations to tackle climate change	<p>Financing leveraged to support the scale-up/diffusion of innovations to tackle climate change by:</p> <ul style="list-style-type: none"> <li>Tracking funding pathways for projects and start-ups in our portfolio.</li> <li>Monitoring co-investment, third-party funding, influenced funding and our influence on financial models through annual reporting routes.</li> <li>Implementing developmental and ex-post evaluation, and AI/big data tools.</li> </ul> <p>Reporting requirement in the final performance report in the form of structured data on: List incl. the type, title, amount and a short description</p>	€ 1,000
CL05	Strengthened resilience to the unavoidable impacts of climate change	<p>Number of people with strengthened climate resilience. With respect to resilience, measures associated with new/improved climate risk management policies, new protection tools/measures, and changes to average annualised losses can all help support target measurement.</p> <p>Reporting requirement in the final performance report in the form of structured data on: List incl. the type, title, number of participants and a short description. The signed and dated participant lists must also be submitted with family names and signatures, according to GDPR.</p>	40
KIC-01	People engaged in targeted interventions	The number of people actively engaged through targeted interventions within activities that are supported by the KIC and encourage healthier and more sustainable behaviour. Actively engaged means a target audience taking part in an intervention through direct interaction.	20
KIC-04	Number of novel solutions/concepts designed and tested with support from KIC	The number of novel solutions/concepts designed and tested in the year N that have demonstrated potential for impact. The solution that is developed and tested needs to be ready to deploy,	1

		implement or execute, as part of the product, service, marketing or within a project.	
EITHE08.1	Participants in non-labelled education and training	<p>Number of successful participants in EIT professional development courses, workshops, online training courses and other education/training activities delivered or in the process of delivery (by country and type of programme), including data on country of citizenship and gender. Only participants who successfully finished the programme will be counted. For this KPI, only education and training activities with clearly defined learning outcomes and competency assessment methods are applicable.</p> <p>Reporting requirement in the final performance report in the form of structured data on:</p> <ul style="list-style-type: none"> <li>• Year of reporting</li> <li>• Title of course/training/education/workshop activity delivered</li> <li>• Type of the programme</li> <li>• Key learning outcomes, competencies and results of the programme</li> <li>• Number of participants enrolled in the reporting year (and breakdown of participants by country of origin)</li> <li>• Number of participants who successfully finished the course in the reporting year</li> <li>• Is the training/education delivered through the HEI CBI?</li> </ul> <p>The signed and dated participant lists must also be submitted with family names and signatures, according to GDPR.</p>	25

## 2.6 Project duration

Projects selected in this Call for Proposals will last **up to seven months**. The expected implementation period is from May 2025 to 30 November 2025.

## 2.7 Financial aspects

### 2.7.1 EIT funding allocation and co-funding rate

The total **maximum EIT funding** allocated to this Call is **€180,000**. Four projects will be selected in this Call with a maximum funding of **€45,000 per project**.

The funding rate that applies to the selected projects is 80% leaving the remaining 20% to be co-funded by the consortium. Co-funding refers to financial contributions such as partners' own resources and/or other non-EIT Community NEB funding sources.

For example, for a proposal with a total budget of €70,000, the maximum EIT Community NEB contribution to be received will be €45,000 (64%), with a total co-funding of €25,000 (37%).

For information on the eligibility of your project's budget costs, please refer to the document *Eligibility of Expenditure* published on the Call webpage. For information on payments and other project management topics, please refer to the *Project Implementation Handbook* published on the Call webpage.

### 2.7.2 Financial sustainability

Within the EIT Community NEB, the KICs have developed a Financial Sustainability (FS) Strategy, to enable the KICs to gradually become financially independent from EIT funding. The FS strategy aims to create a perpetual innovation fund that will sustain innovation beyond the pre-defined cycles of European Commission block grants.

For the scaling-up of the previously funded projects, even if the provision of a Financial Sustainability Mechanism (FSM) for EIT Community NEB is not mandatory for 2023-2024, it will be assessed as part of the evaluation criteria (see section 4.2. Evaluation of proposals). Accordingly, each applicant should have a credible operational strategy for their own product/service/solution evidenced by a credible operational forecast for their specific product/service/solution to be scaled up/replicated during the project implementation. **We aim to promote sustainable projects with a long-lasting impact, ensuring that the activities continue after the EIT Community NEB project is completed.**

In the Application form, applicants should outline the potential economic impact and a potential time frame for the project (e.g., 1-2-3 years or beyond). They should also clarify how they intend to carry out the project e.g., giving a strategic plan/a brief outline of their business plan for the longer term; identifying other funding streams; explaining how data could be exploited for marketing or sales, etc.).

## 2.8 Project implementation, monitoring and reporting

All Project Leaders and consortium partners will need to comply with the rules and procedures defined in the Horizon Europe MGA during the project implementation phase. In particular, they should comply with

the rules and procedures set out in the EIT Community NEB Project Implementation Handbook published on the Call webpage and the Financial Support Agreement that each partner will have to sign with the coordinating KIC.

In addition, when complying with the rules and procedures set out in the Horizon Europe MGA, Project Leaders and consortium partners will need to pay particular attention to Article 16 (Intellectual Property Rights) and Article 17 (Communication, Dissemination and Visibility). Most particularly, all project activities must follow the branding guidelines and obligations set out in MGA Article 17. All communication and dissemination activities funded by the grant must display the special logo of the EIT Community New European Bauhaus with the following text: “EIT Community New European Bauhaus [project name] is supported by the European Institute of Innovation and Technology (EIT), a body of the European Union”) and related communication materials must include the official logo of both: New European Bauhaus and EIT Community New European Bauhaus logos.

To support your project implementation, EIT Community NEB will provide mentoring for the selected projects to increase the impact of the activity in line with the NEB values/principles, and to help design a business model/scale-up that incorporates them.

### 2.8.1 Mandatory deliverables

To ensure that the project is successfully implemented and eligible to receive the specified amount of EIT Community NEB funding, the following minimum mandatory deliverables must be submitted and approved by the EIT Community NEB.

Deliverable	Description	Delivery date
<b>Intermediate report</b>	Report presenting the activities carried out during the first half of the project’s implementation phase, including a challenge description, initial outputs according to the work plan submitted, progress made so far, applied methodology, stakeholder involvement, identification of potential risks and any mitigation measures required, etc.	30 September 2025
<b>Final performance report, including report on KPIs</b>	Report presenting the activities carried out during the whole of the project’s implementation phase, the costs associated and any final conclusions. <ul style="list-style-type: none"> <li>- Overall progress of the activity: brief description, methodology, work plan and achievement.</li> <li>- Outputs and outcomes.</li> <li>- Potential impact on local policies: feedback from local authorities and impact on their strategy.</li> <li>- Explanation of costs associated to these activities.</li> <li>- Conclusions: overall project management and recommendations to further replicate or scale up the completed activity.</li> </ul>	5 December 2025

	<p>- Demonstrating the evidence of the KPIs publications/dissemination/communication events (title, description, views/participants, events pages, agenda, pictures, signed and dated consent forms with family names and signatures anonymised, signed and dated participant lists with family names and signatures anonymised, pictures/videos/graphic/image/infographics) that they were able to produce according to the pre-defined targets of the application.</p>	
--	--	--

Minor additional deliverables may be needed (e.g. slide decks and presentations), depending on the project's scope, and/or the product/service solution.

## 3. Preparing and submitting a proposal

### 3.1 Mandatory elements

All proposals need to submit an application form through NetSuite before the deadline, together with a Letter of Intent (if applicable).

In particular, all proposals are expected to include the following information in their Application Form:

- A description of the **proposed solution or methodology** to be piloted, and a high-level execution and management plan of the pilot. This includes a description of **strategic importance and reasons to scale up/replicate the project (WHY)**; **who would benefit (for WHOM)**: which social group(s) are targeted); **how to achieve the outlined goals (HOW)**; and **the main role filled by each partner in the consortium (by WHOM)**.
- An **end-user engagement plan** that targets specific audiences, including a gender perspective and/or considering other minority/vulnerable groups during the pilot, and a dissemination and communication plan on the pilot activities, impacts and outcomes. This includes a description of the **social demand**.
- A description of **performance metrics to be used** to objectively evaluate the **sustainability, inclusivity and aesthetic values**. All proposals need to embed and integrate all three core NEB values (sustainability, aesthetics, inclusion) and all three key NEB principles (multilevel, participatory, transdisciplinary approach) into their projects. These metrics should make it possible to quantify the project's impact during the implementation phase.
- A description of the **potential economic impact** of the pilot will be assessed. The applicant should describe how they plan to continue the project beyond the end of the grant, including, for

example: giving a strategic plan/brief outline of their business plan for the longer term; identifying other funding streams; explaining how data could be exploited for marketing or sales, etc.

**Cities, regions or affiliated entities must provide evidence of at least one of the following options when developing the proposal:**

- **Option A:** An approved public realm infrastructure or available public space that can be improved and boosted by the project's proposal or solution using the NEB approach.

And/or:

- **Option B:** Reference to an approved official local strategic document with an explanation of how and at what level the project contributes to achieving its targets, including a realistic and achievable plan. The project must provide clear evidence of its commitment and involvement in improving the targeted segment/area. Some examples of specific types of local level official strategic documents that can be submitted are included in the following non-exhaustive list:
  - Commitment statement of the city/region on the relevant segment/area targeted by the project
  - Sustainable Urban Mobility Plans (SUMPs)
  - Sustainable Energy and Climate Action Plans (SECAPs)
  - Zero Pollution Action Plan for 2030
  - Waste management plans and/or waste prevention programmes
  - Circular Economy Strategy or Action Plan
  - Strategy on Adaptation to Climate Change
  - Local Action Plan on green urban areas and green infrastructure; the Sustainable Land Use Strategy; and the Soil Strategy
  - Nature Restoration Plan
  - Farm to Fork Strategy
  - Biodiversity Strategy for 2030
  - Any action plans that can be supported by the project
  - Net-Zero Industry Act
  - EU Industrial Strategy
  - Critical Raw Materials Act

### 3.2 Support given to applicants preparing a proposal

To improve their chances of success, applicants are encouraged to read the Guidelines for Applicants document thoroughly, attend the call information session and direct any questions to contact people during the proposal preparation process.

Type of contact	Team	Email
Call timeline, evaluation process, financial aspects, and online submission platform.	Programme Management Office (PMO) – Call Coordinator	<a href="mailto:pmo@eiturbanmobility.eu">pmo@eiturbanmobility.eu</a>
Rules of participation, Call content and requirements, scope and challenges	EIT Urban Mobility	<a href="mailto:maria.marrugat@eiturbanmobility.eu">maria.marrugat@eiturbanmobility.eu</a> ; <a href="mailto:rebecca.vaneijk@eiturbanmobility.eu">rebecca.vaneijk@eiturbanmobility.eu</a>
	EIT Climate KIC	<a href="mailto:ilona.puskas@climate-kic.org">ilona.puskas@climate-kic.org</a>
	EIT FOOD	<a href="mailto:Marianne.lemberger@eitfood.eu">Marianne.lemberger@eitfood.eu</a>
	EIT Manufacturing	<a href="mailto:anna-liisa.laarits@eitmanufacturing.eu">anna-liisa.laarits@eitmanufacturing.eu</a>

The *Guidelines for Applicants* document is published on the Call webpage and provides comprehensive information and instructions on preparing and submitting a proposal for this Call.

To help applicants prepare and submit their proposals, EIT Community NEB will host an online information session on **25 March 2025 at 11.30 CET**. This online information event will cover the Call content, scope and challenges, requirements, timeline, evaluation process and criteria, financial aspects, and online submission steps related to the Call.

Please register [here](#) before **24 March 2025** and access the online session here: [MS TEAMS](#) (LIVE).

### 3.3 How and when to apply

Before starting a proposal, all applicants (Project Leader and consortium partners) must register on the following two platforms:

- **STEP 1:** The first step an organisation must take, in order to be able to apply for an EIT Urban Mobility call, is to register in the [EU Funding & Tender Portal](#) and obtain a **valid PIC number**. If an organisation has already a PIC number, there is no need to register again.

If you don't know if your organization already has a PIC number, you can verify directly on the EU Portal ([click here](#)) whether your organisation is already registered.

- **STEP 2:** Once an organisation has a valid PIC number, it will be possible to register in the EIT UM NetSuite Platform, by submitting the [Partner Information Form \(PIF\)](#).

If in a few hours, after submitting the PIF form, you don't receive an automatic e-mail with the log-in credentials, please contact the EIT UM Service Desk [servicedesk@eiturbanmobility.eu](mailto:servicedesk@eiturbanmobility.eu).

Be also aware that, registration of an entity in the submission tool, can take **up to two working days**. To avoid complications, we strongly recommend that all project partners complete their registration in NetSuite several days prior to the submission deadline. EIT Urban Mobility staff may

not have the capacity to handle last-minute registration requests, therefore early preparation is crucial.

**NB:** Organisations that previously participated in an EIT Urban Mobility project, and therefore are already registered in the PLAZA platform, should not submit a PIF form. Instead, please contact the EIT UM Service Desk [servicedesk@eiturbanmobility.eu](mailto:servicedesk@eiturbanmobility.eu): you will be then provided with the credentials to access the new NetSuite platform.

- **STEP 3:** access the [EIT Urban Mobility NetSuite platform](#) and find all our open calls under “Menu” --> “Call for Proposals” --> “Open Calls”

The following documentation must be submitted by the Project Leaders **through NetSuite** no later than **22 April 2025, 17:00 CET**:

- Application Form
- Letter of Intent when applicable
- Optional: Annexes to the application form (figures, graphics, photos etc.)

**Any proposals submitted after the deadline will be ineligible.**

Please carefully read the registration and submission processes outlined in the *Guidelines for Applicants* document published on the call webpage. **Any proposals submitted after the deadline will not be considered.**

## 4. Evaluation and selection process

Once the applicants have submitted their proposals, the EIT Community NEB team will proceed to:

- Check eligibility and admissibility of those proposals and, if successful:
- Begin evaluating the content, assisted by the expert evaluators.

### 4.1 Admissibility and eligibility check

A proposal will be admissible if it fulfils the following criteria:

<b>1. Completeness</b>	The proposal is completed, it is <b>submitted in time</b> , to the right Call, by the Project Leader via the NetSuite submission tool, in English, and with all its mandatory sections and annexes.
------------------------	---

If a proposal is not admissible, it will not go to the eligibility check. A proposal will be eligible if it fulfils the following criteria:

<b>2. Registration</b>	Applicants (all consortium partners) have fully completed their Partner Information Form (PIF) in the NetSuite submission tool, including their valid PIC number.
<b>3. Applicants eligibility</b>	<ul style="list-style-type: none"> <li>All participant entities are EIT NEB Community partners as listed in Annex 1 and come from EU Member States or Third countries associated to Horizon Europe.</li> <li>If applicable, the newly associated city, region, or entity affiliated with a city or region are from EU Member States or Third countries associated to Horizon Europe.</li> </ul>
<b>4. Consortium composition</b>	The consortium is made up of a minimum of two and a maximum of four partners from EIT Community NEB partners. This consortium size includes the city/region/affiliated entity with an active role (included as a partner) and excludes the potential observer entity.
<b>5. Letter of Intent (if applicable)</b>	If the EIT Community NEB city/region/affiliated entity or the <u>new</u> city/region/affiliated entity is an observer, a Letter of Intent in English must be provided to demonstrate their interest in and support of the project.
<b>6. Co-funding rate</b>	All proposals must have a minimum co-funding rate of 20%.

Proposals failing to meet one or more admissibility and eligibility criteria will receive an official communication from the EIT Community NEB, informing applicants of the outcome of the admissibility and eligibility check and explaining why the proposal failed to meet the criteria.

If there is any missing or incorrect information linked to applicant's registration, Letter of Intent and co-funding, applicants will be awarded five calendar days after receiving the official communication to allow them to complete or correct the proposal and resubmit it. If the applicants respond positively to this requirement within the time limit, the proposals will progress to the next stage of the evaluation process (See Section 4.2 below). If the applicants fail to respond, or respond after the deadline, the proposals will be ineligible and will not be processed further.

The Lead Applicants may appeal if they disagree with the decision to reject a proposal on the grounds that it is inadmissible/ineligible. An appeal must be made within seven calendar days of the official EIT Urban Mobility notification of ineligibility (see *Appeal procedure* document published on the Call webpage).

## 4.2 Evaluation of proposals

The purpose of the evaluation is to assess the excellence, impact and implementation of each proposal that successfully passes the eligibility and admissibility check.<sup>4</sup>

Each proposal will be assessed in accordance with the following scores:

Score	Description	
0	<i>None</i>	The information requested is missing or incomplete
1	<i>Very poor</i>	The information provided is considered irrelevant or inadequate compared to the specific call provisions
2	<i>Poor</i>	The information provided lacks relevant quality and contains significant weaknesses, compared to the specific call provisions
3	<i>Fair</i>	The overall information provided is adequate; however, some aspects are unclearly or insufficiently detailed, compared to the specific call provisions
4	<i>Good</i>	The information provided is adequate with sufficiently outlined details, compared to the specific call provisions
5	<i>Excellent</i>	The information provided is outstanding in its detail, clarity and coherence, compared to the specific call provisions

This evaluation process will consist of (1) the quality evaluation carried out by expert evaluators and (2) the Portfolio selection from the EIT Community NEB Selection Committee which will endorse the evaluation results obtained during the quality evaluation.

### 4.2.1 Quality evaluation

During the quality evaluation phase, each proposal will be evaluated by an Evaluation panel composed of one EIT Community NEB expert evaluators and one external expert evaluator appointed by the KICs through a transparent process. The external expert evaluator will also be the Rapporteur.

The Evaluation Panel will be invited to evaluate each proposal based on the evaluation criteria described below. The Rapporteur will produce a Summary Evaluation Report (SER) for each assessed proposal. The SERs will be discussed and agreed upon in a Consensus meeting attended by the Evaluation Panel and a Quality controller from the KICs.

The result of each SER, along with the list of evaluation results for all proposals assessed and the conditions for funding, will be sent to the Selection Committee for endorsement.

<sup>4</sup> According to the general principles for the evaluation as per MGA Annex 5: avoidance of conflict of interest and compliance with the principles of transparency, non-discrimination and sound financial management.

The proposals are evaluated and scored against the criteria listed below:

<b>1. Excellence and novelty</b>	<b>Max. scoring 20</b>
1.1 The proposal objectives and activities are SMART (Specific, Measurable, Achievable, Realistic and Time-Bound).	5
1.2 The proposal integrates the three NEB values (sustainability, inclusivity and aesthetics) throughout the process, from defining the challenge to proposing a solution.	5
1.3 The proposal provides a clear description of the project's strategic importance and reasons to scale up/replicate the project (WHY) aligned with the city's planned public realm or the city's strategy and/or local action plan where the project takes place.	5
1.4 The proposal demonstrates its need and relevance for society, by engaging at least two target groups.	5
<b>2. Impact: social, economic, financial, and general sustainability</b>	<b>Max. scoring 20</b>
2.1 The proposal provides a tailored end-user engagement plan to target audiences, strengthening gender balance, diversity and inclusion.	5
2.2 The proposal provides a clear dissemination and communication strategy regarding the activities, impacts and outcomes.	5
2.3 The proposal's expected outcomes are clearly defined and measurable. Adequate performance metrics and target values of the proposed solution are provided to objectively evaluate each of the NEB values: sustainability, inclusivity and aesthetic.	5
2.4 The proposal's potential economic impact is outlined to ensure potential future durability and transferability beyond this grant.	5
<b>3. Implementation: quality and efficiency</b>	<b>Max. scoring 10</b>
3.1 The proposed budget is clear and in line with a structured workplan, considering tasks, deliverables, outputs and outcomes.	5
3.2 The proposal presents a clear risk mitigation plan and describes management structures specifying the team's experience and their role within the project to ensure that it is effectively delivered.	5

The overall quality evaluation of the proposal is based on the evaluation's three criteria scores (Excellence, Impact, Implementation). A total possible score of 50 points is distributed as follows:

	<b>Max score</b>
<b>Excellence</b>	<b>20 points</b>
<b>Impact</b>	<b>20 points</b>
<b>Implementation</b>	<b>10 points</b>
<b>Total points</b>	<b>50 points</b>

Four proposals with up to €45,000 each and ranked **at or above the threshold of 30 points** might be selected.

If as a result of the quality evaluation, two or more proposals receive the same scoring, funding prioritisation will be based on the following scoring order:

- Complementarity and synergies in the EIT Community NEB portfolio considering thematic axis and challenges addressed in the cohort and previously
- Geographical spread within the EIT Community NEB Portfolio

This will be specifically brought to the attention of the EIT Community NEB Selection Committee.

### *4.2.2 Portfolio selection*

Portfolio selection is the final step in the evaluation and selection process. It is carried out by the EIT Community NEB Selection Committee, which is composed of the EU Affairs and RIS Director of EIT Manufacturing, the Strategic Projects Director of EIT Urban Mobility, the Performance Developer of Climate-KIC and the Director of EIT Community of EIT Food.

The EIT Community NEB Selection Committee will receive the list of proposals and the evaluation results together with the SER. This Committee will endorse the final ranking list including the projects selected for funding, the projects put on the reserve list (if any), and those rejected. In addition, the EIT Community NEB Selection Committee will endorse the list of conditions (if any) to be addressed by the applicants of the selected projects to improve their proposals.

EIT Community NEB reserves the right to contact applicants of proposals included on the reserve list if additional EIT funds become available; moreover, in justified cases, EIT Community NEB can activate the reserve list in the next Business Plan.

## **4.3 Communication of results to applicants**

The Lead Applicants will receive a communication from the EIT Community NEB with the evaluation results, after the selection process. The email notification will include the SER of the proposal and the results of the selection process (pre-selected, rejected, reserve list).

If the proposal is pre-selected, the evaluation results may include a set of conditions to improve the proposals, within a defined non-negotiable period. The Lead Applicant of a conditionally preselected proposal must respond and update the proposal according to these conditions within this timeframe. If the Lead Applicant fails to comply with the conditions or does not respond before the deadline, EIT Community NEB reserves the right to withdraw the conditional notification. Should this occur, the applicant of the next proposal on the ranking list will be contacted.

## 4.4 Appealing against evaluation results

If the Project Leader of a rejected proposal disagrees with the decision, they may only appeal in the event that an SER comment clearly contradicts the information provided in the proposal. In this case, the Project Leader will have seven calendar days after receiving the final evaluation results to submit an appeal to the Evaluation process (see document Appeal procedure published on the Call webpage).

## 4.5 Onboarding and contracting phase

Should all conditions be met within the indicated timeframe, each KIC will initiate the onboarding and contracting process. The contract will be signed only when 30 days have elapsed since the preselection decision.

As outlined in the EIT Community NEB Project Implementation Handbook, entities receiving EIT funding for the implementation of projects will become subgrantees of the Business Plan 2023-2025 and will thus commit themselves to work towards achieving the related targets. Entities that have never been part of projects funded by KICs and do not have a PIC validated by the Research Executive Agency (REA) of the European Commission, will be subject to a PIC validation process managed by the EIT Community Onboarding Service. All validated entities will proceed upon the signing of the FSA.

Additionally, each KIC reserves the right to request that the EIT Community Onboarding Service carry out a financial capacity assessment to check the financial capacity of any entity of a selected proposal. In such cases, the coordinating KIC may require the following:

- an enhanced financial responsibility regime, i.e. joint and several liability for all subgrantees or joint and several liability for affiliated entities, if any;
- prefinancing paid in instalments (multiple/additional prefinancing);
- (one or more) prefinancing guarantees.

Otherwise, it might:

- propose no prefinancing;
- request that the entity be replaced or, if necessary, reject the entire proposal.

In other words, if the assessment results are not satisfactory, the coordinating KIC might reject the participation of this entity and then check whether or not the proposal is still eligible.

# Annex I: List of eligible EIT Community NEB project partners

	Official Name of the eligible EIT Community project partner in English	Type of organisation	Role in the consortium	Project Website	Call title of the former EIT Community project	Implementation year	Acronym of the former EIT Community project	Title of the former EIT Community project	KIC Coordinator
1	Aizputes Renesances biedrība	Nonprofit	Lead partner	n/a	Call for Proposals for Citizen Engagement Activities	2023	ACFPHH	Aizpute Citizens' Forum for Preservation of Historical Heritage	Climate KIC
2	Rés do Chão	Nonprofit	Lead partner	<a href="https://resdochao.org/">https://resdochao.org/</a>	Call for Proposals for Citizen Engagement Activities	2023	CFCP	Cabra Figa Community Park	EIT Food
